

17 September 2010

Dear National Governing Bodies, (en español mas abajo)

The International Surfing Association (ISA) is writing to inform you that the 2010 ISA World Bodyboard Championship that was being organized by the Federacion Española de Surf (FES) is unfortunately unable to occur in December 2010 as tentatively planned.

FES has been working hard to organize the event, however due to the world economic situation and the loss of funding from the Spanish Government and Canaries Sports Ministry, they were forced to make the difficult decision of canceling the 2010 event. FES is diligently working to receive written support for the 2011 edition, sends their sincerest apology to all and will continue working for a better surfing future to maintain your support and trust for next year.

We understand that many member nations were interested in participating in the ISA World Bodyboard Championship. The ISA is doing everything possible to ensure this event takes place in 2011.

Kind Regards,

ISA Headquarters

---

Estimadas Federaciones Nacionales,

Lamentamos informales que el 2010 ISA World Bodyboard Championship, organizando por la Federacion Española de Surf (FES), no se llevara a cabo en Diciembre 2010 como estaba planeado.

A pesar de que la FES ha trabajado incesantemente para organizar el evento, la crisis global económica y la pérdida del patrocinio del Gobierno Español y el Ministerio de Deporte de las Canarias, han hecho imposible la realización del evento en el 2010. La FES continuara gestionando el patrocinio para el 2011 y les ofrece sus más sinceras disculpas.

Por nuestra parte, continuaremos trabajando para concretar el evento el próximo año. Muchas gracias por el apoyo de todas las naciones que han demostrado interés en participar en el World Bodyboard Championship ISA.

Atentamente,

ISA Headquarters
